

## Storypark correspondence from educational leader

### Announcement

Created by Bev Raghwani from Educators Space - 15 Nov

Hi everyone,

just a friendly reminder regarding documenting transitions of children between rooms.

Hi Girls ,

Here an example of Term 4 Observation as some of you are a little unsure. So Term 4 is Developmental checklist and please complete the Summative section with dates with the Educators name and complete the Assessment Summative with the child picture. Upload the pictures of all three pages in the observation column and complete the cycle as the attached picture Below. If you are doing the child's Developmental checklist that was already been done for Term 2 and now for Term 4 the child age has pass the age Developmental milestones please use the next age up to complete the Developmental checklist and it will be still the Summative section....

Thanks Sanjina,

just another reminder also, please check that the child is still in the appropriate age bracket of the milestone checklist, if they have moved into the next bracket, complete the summative checklist/report on a new form.

They were all posted here in the educators space community on April 11th this year, so if you keep scrolling you will find them 😊

Good morning everyone,

Please find attached, the slides form Monday nights training. If you have any questions at all or would like to sit down for some one on one training, please speak to Sanjina or myself to organise a good time.

Hope you have a great day!

Hi everyone,

Sanjina has just sent me the program checks and I just wanted to jump on and say well done to all of you, its great to see lots of wonderful input from even our newer educators, your input is greatly appreciated.

A quick message to all but specifically the room leaders. Please ensure that when Sanjina gives you notes throughout the term when completing her weekly checks, that you action the changes that she has recommended. This is to avoid having too much to fix up at the end of term which some of you may be dealing with now. ...
